Catalog of North Carolina Postmarks During the Stampless Period

14 September 1821, red cogwheel circular datestamp of Edenton on a ship letter arriving at Edenton, addressed to Raleigh (Wake County). Letter redirected from Raleigh to Stagville (Orange County) with a 28 September 1821 circular datestamp.

The *American Stampless Cover Catalog* (ASCC), Volume 1, which is the standard reference for handstamp and manuscript townmarks of United States post offices, was last published in 1997. During the 17 years since the ASCC was published, much more information has become available in the North Carolina area. This project will update the ASCC listings for North Carolina and will illustrate each of the known handstamp postmarks, many of which were not illustrated in the ASCC. New pricing information also is available. The format is similar to that of the ASCC. Abbreviations found in this listing are:

The following listing shows all the North Carolina manuscript postmarks that we have recorded. The counties of the post offices are also shown as some offices joined different counties as new ones were formed. The years of manuscript postmarks also are shown. Although two post offices within a county may have had the same name, they were not in use at the same time. Multiple post offices of the same name in a county are numbered. Where [no record] is shown, the listing was recorded in the *American Stampless Cover Catalog* of 1997, but we have no record of this use.
